Instructions for constructing Cutter numbers using this table: Delete the final digit from the first Cutter number of the span to which this table applies, and substitute the resulting Cutter for .x1 in this table. Delete the final digit from the last Cutter number of the span to which the table applies, and substitute the resulting Cutter for .x2 in this table. Example: For the span DP702.B61-B70, delete the digit "1" from the Cutter "B61" and substitute the resulting Cutter (B6) for .x1 in the table, yielding the Cutters .B61, .B62, .B63, .B64, .B65, .B655, .B67, .B68, and .B69. Delete the digit "0" from the Cutter "B70" and substitute the resulting Cutter (B7) for .x2 in the table, yielding the Cutter .B7.
