That any ex-service man shown to have had a tubercular disease of compensable degree, and who has been hospitalized for a period of one year, and who in the judgment of the director has reached a condition of complete arrest of his disease, and who shall be discharged from further hospitalization, shall be rated as temporarily totally disabled, and such rating shall not be decreased within a period of six months.

(3) If and while the disability is rated as total and permanent, the rate of compensation shall be \$100 per month: *Provided, however,* That the permanent loss of the use of both feet or both hands, or of both eyes, or of one foot and one hand, or of one foot and one eye, or of one hand and one eye, or the loss of hearing of both ears, or becoming permanently helpless or permanently bedridden, shall be deemed to be total, permanent disability: *Provided, further,* That the compensation for the loss of the use of both eyes shall be \$150 per month, and that compensation for the loss of the use of both eyes and one or more limbs shall be \$200 per month: *Provided, further,* That for double total, permanent disability the rate of compensation shall be \$200 per month.

of earning capacity resulting from such injuries in civil occupations similar to the occupation of the injured man at the time of enlistment and not upon the impairment in earning capacity in each individual case, so that there shall be no reduction in the rate of compensation for individual success in overcoming the handicap of an injury. The bureau in adopting the schedule of ratings of reduction in earning capacity shall consider the impairment in ability to secure employment which results from such injuries. The bureau shall from time to time readjust this schedule of ratings whenever actual experience shall show that it is unjust to the disabled veteran.

He may have a duly qualified physician designated and paid by him present to participate in such examination. For all examinations he shall, in the discretion of the director, be paid his reasonable traveling and other expenses and also loss of wages incurred in order to submit to such examination. If he shall neglect or refuse to submit to such examination, or shall in any way obstruct the same, his right to claim compensation under this title shall be suspended until such neglect, refusal, or obstruction ceases. No compensation shall be payable while such neglect, refusal, or obstruction continues, and no compensation shall be payable for the intervening period.

SEC. 204. Every person in receipt of compensation for disability shall submit to any reasonable medical or surgical treatment furnished by the bureau whenever requested by the bureau; and the consequences of unreasonable refusal to submit to any such treatment shall not be deemed to result from the injury compensated for.

SEC. 205. Upon its own motion or upon application the bureau may at any time review an award and, in accordance with the facts found upon such review, may end, diminish, or increase the compensation previously awarded, or, if compensation is increased, or if compensation has been refused, reduced, or discontinued, may (subject to the provisions of section 210 hereof) award compensation in proportion to the degree of disability sustained as of the date such degree of disability began, but not earlier than the date of discharge or resignation. Except in cases of fraud participated in by the beneficiary, no reduction in compensation shall be made retroactive, and no reduction or discontinuance of compensation shall be effective until the 1st day of the third calendar month next succeeding that in which such reduction or discontinuance is determined.

SEC. 206. That no compensation shall be payable for death or disability which does not occur prior to or within one year after discharge or resignation from the service, except as provided in section 200 of this Act, and except where there is an official record of the injury during service or at the time of separation from active service, or where within one year from the approval of this Act, satisfactory evidence is furnished the bureau to establish that the injury was suffered or aggravated during active service. Where there is official record of injury during service compensation shall be payable in accordance with the provisions of this title, for death or disability whenever occurring, proximately resulting from such injury.

SEC. 207. That compensation shall not be payable for death in the course of the service until the death be officially recorded in the department under which the person may be serving. No compensation shall be payable for a period during which the man has been reported "missing" and a family allowance has been paid for him under the provisions of Article II of the Act of October 6, 1917.

SEC. 208. That no compensation shall be payable for death inflicted as a lawful punishment for crime or military offense except when inflicted by the enemy. A dismissal or discharge by sentence of court-martial from the service shall bar and terminate all right to any compensation under the provisions of this title for the period of service from which such discharge is given.

SEC. 209. That no compensation shall be payable and that (except as provided by subdivision (10) of section 202 hereof) no treatment shall be furnished unless a claim therefore be filed in case of disability within five years after discharge or resignation from the service, or, in case of death during the service, within five years after such death is officially recorded in the department under which he may be serving: *Provided, however,* That where compensation is payable for death or disability occurring after discharge or resignation from the service, claim must be made within five years after such death or the beginning of such disability.

The time herein provided may be extended by the director not to exceed two years for good cause shown. If at the time that any right accrues to any person under the provisions of this title such person is a minor, or is of unsound mind or physically unable to make a claim, the time herein provided shall not begin to run until such disability ceases.

SEC. 210. That no compensation shall be payable for any period more than one year prior to the date of claim therefor, nor shall increased compensation be awarded to revert back more than six months prior to the date of claim therefor. Except in case of fraud participated in by the beneficiary, no reduction in compensation shall be made retroactive.

SEC. 211. Compensation because of disability or death of members of the Army Nurse Corps (female) or of the Navy Nurse Corps (female) shall be in lieu of any compensation for such disability or death under the Act entitled "An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes," approved September 7, 1916.

SEC. 212. This Act is intended to provide a system for the relief of persons who were disabled, and for the dependents of those who died as a result of disability suffered in the military service of the United States between April 6, 1917, and July 2, 1921. For such disabilities and deaths no other pension laws or laws providing for gratuities or payments in the event of death in the service shall be applicable: *Provided, however,* That the laws relating to the retirement of persons in the regular military or naval service shall not be considered to be laws providing for pensions, gratuities, or payments within the meaning of this section: *And provided further,* That compensation under this title shall not be paid while the person is in receipt of active service or retirement pay. Titles II and IV of this Act shall not be applicable to any disability or resultant death in the service if such disability occurred as a result of service prior to April 6, 1917, or after July 2, 1921.

SEC. 213. That where any beneficiary of this bureau suffers or has suffered an injury or an aggravation of an existing injury as the result of training, hospitalization, or medical or surgical treatment, awarded to him by the director and not the result of his misconduct, and such injury or aggravation of an existing injury results in additional disability to or the death of such beneficiary, the benefits of this title shall be awarded in the same manner as though such disability, aggravation, or death was the result of military service during the World War. The benefits of this section shall be in lieu of the benefits under the Act entitled 'An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes,' approved September 7, 1916; and from any payments due hereunder shall be deducted all amounts paid by any person other than United States as damages or compensation for such injury, aggravation, or death: *Provided,* That application be made for such benefits within

Such insurance must be applied for within one hundred and twenty days after enlistment or after entrance into or employment in the active service and before discharge or resignation.

Conversion of term insurance.  
Vol. 42, p. 155.  
Post, p. 1309.

SEC. 301. Not later than July 2, 1926, all term insurance held by persons who were in the military service after April 6, 1917, shall be converted, without medical examination, into such form or forms of insurance as may be prescribed by regulations and as the insured may request. Regulations shall provide for the right to convert into ordinary life, twenty-payment life, endowment maturing at age sixty-two, and into other usual forms of insurance, and shall prescribe the time and method of payment of the premiums thereon, but payments of premiums in advance shall not be required for periods of more than one month each and may be deducted from the pay or deposit of the insured or be otherwise made at his election.

Conversion rights.

Term insurance to cease July 2, 1926.

All term insurance shall cease on July 2, 1926, except when death or total permanent disability shall have occurred before July 2, 1926.

Insurance matured by total disability.

In case where an insured whose yearly renewable term insurance has matured by reason of total permanent disability is found and declared to be no longer permanently and totally disabled, and where the insured is required under regulations to renew payment of premiums on said term insurance, and where this contingency is extended beyond the period during which said yearly renewable term insurance otherwise must be converted, there shall be given such insured an additional period of two years from the date on which he is required to renew payment of premiums in which to convert said term insurance as hereinbefore provided.

Renewal authorized if no longer disabled.

Optional lump sum, etc., payments.

The bureau may make provision in the contract for converted insurance for optional settlements, to be selected by the insured, whereby such insurance may be made payable either in one sum or in installments for thirty-six months or more. The bureau may also include in said contract a provision authorizing the beneficiary to elect to receive payment of the insurance in installments for thirty-six months or more, but only if the insured has not exercised the right of election as hereinbefore provided; and even though the insured may have exercised his right of election, the said contract

may authorize the beneficiary to elect to receive such insurance in installments spread over a greater period of time than that selected by the insured.

SEC. 302. Whenever benefits under United States Government life insurance (converted insurance) become, or have become, payable because of total permanent disability of the insured or because of the death of the insured as a result of disease or injury traceable to the extra hazard of the military or naval service, as such hazard may be determined by the director, the liability shall be borne by the United States, and the director is hereby authorized and directed to transfer from the military and naval insurance appropriation to the United States Government life-insurance fund a sum which, together with the reserve of the policy at the time of maturity by total permanent disability or death, will equal the then value of such benefits. When a person receiving total permanent disability benefits under a United States Government life policy (converted policy), recovers from such disability, and is then entitled to continue a reduced amount of insurance, the director is hereby authorized and directed to transfer to the military and naval insurance appropriation all of the loss reserve to the credit of such policy claim except a sum sufficient to set up the then required reserve on the reduced amount of the insurance that may be continued, which sum shall be retained in the United States Government life-insurance fund for the purpose of such reserve.

SEC. 303. If no person within the permitted class of beneficiaries survive the insured, or if before the completion of payments the beneficiary or beneficiaries shall die and there be no surviving person within said permitted class, then there shall be paid to the estate of the insured the present value of the monthly installments thereafter payable under the provisions of this title: *Provided*, That in cases where the estate of the insured would escheat under the laws of the place of his residence the insurance shall not be paid to the estate of the insured, but shall escheat to the United States and shall be credited to the United States Government life-insurance fund or the military and naval insurance appropriation, as may be proper. This section shall be deemed to be in effect as of October 6, 1917.

SEC. 304. In the event that all provisions of the rules and regulations other than the requirements as to the physical condition of the applicant for insurance have been complied with, and application for reinstatement, in whole or in part, of lapsed or canceled yearly renewable term insurance or United States Government life insurance (converted insurance) hereafter made may be approved if made within one year after the passage of this Act or within two years after the date of lapse or cancellation: *Provided*, That the applicant's disability (if any) is the result of an injury or disease, or of an aggravation thereof, suffered or contracted in the active military or naval service during the World War: *Provided further*, That the applicant during his lifetime submits proof satisfactory to the director showing the service origin of the disability or aggravation thereof and that the applicant is not totally and permanently disabled. As a condition, however, to the acceptance of an application for the reinstatement of lapsed or canceled yearly renewable term insurance, where the requirements as to the physical condition of the applicant have not been complied with, or, for the reinstatement of United States Government life insurance (converted insurance) in any case, the applicant shall be required to pay all the back monthly premiums which would have become payable if such insurance had not lapsed, together with interest of the rate of 5 per centum per annum, compounded annually, on each premium

In such case the court shall ascertain the area and value of the land thus held by any non-Indian claimant under such superior title, excluding therefrom the area and value of lots or parcels of land the title to which has been found to be in other persons under the provisions of this Act: *Provided, however,* That any findings by the court under the provisions of this section may be reviewed on appeal or writ of error at the instance of any party aggrieved thereby, in the same manner, to the same extent, and with like effect as if such findings were a final judgment or decree. When such finding adverse to the Indian claim has become final, the Secretary of the Interior shall report to Congress the facts, including the area and value of the land so adjudged against the Indian claim, with his recommendations in the premises.

That section 6 of the Act of March 1, 1911 (Thirty-sixth Statutes at Large, page 961), is hereby amended to authorize and direct the Secretary of Agriculture to examine, locate and recommend for purchase such forested, cut-over or denuded lands within the watersheds of navigable streams as in his judgment may be necessary to the regulation of the flow of navigable streams or for the production of timber and to report to the National Forest Reservation Commission the results of such examination; but before any lands are purchased by the commission said lands shall be examined by the Secretary of Agriculture, in cooperation with the Director of the Geological Survey, and a report made by them to the commission showing that the control of such lands by the Federal Government will promote or protect the navigation of streams or by the Secretary of Agriculture showing that such control will promote the production of timber thereon.

SEC. 7. Any lands to which title is so accepted shall be in units of

such size or so located as to be capable of economical administration as national forests either separately or jointly with other lands acquired under this section, or jointly with an existing national forest. All lands to which title is accepted under this section shall, upon acceptance of title, become national forest lands, subject to all laws applicable to lands acquired under the Act of March 1, 1911 (Thirty-sixth Statutes at Large, page 961), and amendments thereto. In the sale of timber from national forest lands acquired under this section preference shall be given to applicants who will furnish the products desired therefrom to meet the necessities of citizens of the United States engaged in agriculture in the States in which such national forest is situated: *Provided*, That all property, rights, easements, and benefits authorized by this section to be retained by or reserved to owners of lands donated or devised to the United States shall be subject to the tax laws of the States where such lands are located.

SEC. 9. That the President, in his discretion, is hereby authorized to establish as national forests, or parts thereof, any lands within the boundaries of Government reservations, other than national parks, reservations for phosphate and other mineral deposits or water-power purposes, national monuments, and Indian reservations, which in the opinion of the Secretary of the department now administering the area and the Secretary of Agriculture are suitable for the production of timber, to be administered by the Secretary of Agriculture under such rules and regulations and in accordance with such general plans as may be jointly approved by the Secretary of Agriculture and the Secretary formerly administering the area, for the use and occupation of such lands and for the sale of products therefrom. That where such national forest is established on land previously reserved for the Army or Navy for purposes of national defense the land shall remain subject to the unhampered use of the War or Navy Department for said purposes, and nothing in this section shall be construed to relinquish the authority over such lands for purposes of national defense now vested in the Department for which the lands were formerly reserved. Any moneys available for the maintenance, improvement, protection, construction of highways and general administration of the national forests shall be available for expenditure on the national forests created under this section. All receipts from the sale of products from or for the use of lands in such national forests shall be covered into the Treasury as miscellaneous receipts, forest reserve fund, and shall be disposed of in like manner as the receipts from other national forests as provided by existing law.  "Secretary."  
 "Reclamation law."

"Reclamation fund."

"Project."

"Division of project."

(e) The words "division of a project." means a substantial irrigable area of a project designated as a division by order of the Secretary.

New projects. Approval of, subject to securing information by the Secretary as to water supply, cost, use for farm homes, etc.

SUBSEC. B. That no new project or new division of a project shall be approved for construction or estimates submitted therefor by the Secretary until information in detail shall be secured by him concerning the water supply, the engineering features, the cost of construction, land prices, and the probable cost of development, and he shall have made a finding in writing that it is feasible, that it is adaptable for actual settlement and farm homes, and that it will probably return the cost thereof to the United States.

Qualifications required of applicants for entry of project lands.

SUBSEC. C. That the Secretary is hereby authorized, under regulations to be promulgated by him, to require of each applicant including preference right ex-service men for entry to public lands on a project, such qualifications as to industry, experience, character, and capital, as in his opinion are necessary to give reasonable assurance of success by the prospective settler. The Secretary is authorized to appoint boards in part composed of private citizens, to assist in determining such qualifications.

Boards to determine.

Irrigable lands of new projects to be classified.

Basis for determining water charges.

SUBSEC. D. That the irrigable lands of each new project and new division of a project hereinafter approved shall be classified by the Secretary with respect to their power, under a proper agricultural program, to support a family and pay water charges, and the Secretary is authorized to fix different construction charges against different classes of land under the same project for the purpose of equitably apportioning the total construction cost so that all lands may as far as practicable bear the burden of such cost according to their productive value.

Public notices of construction charges.

When land ready for settlement.

Of commencement of paying installments.

SUBSEC. E. That hereafter the Secretary shall as to each irrigable acre of land in each new project, or a new division of a project, issue two public notices relating to construction charges. The first public notice shall be issued when the land is ready for settlement and will announce the construction charge per irrigable acre. The second public notice shall be issued when in the opinion of the Secretary the agricultural development of the project shall have advanced sufficiently to warrant the commencement of payment of installments of such construction charge. The second public notice shall fix the date when payments will begin on the construction charge announced by the first public notice, which date shall be not more than five years from the date of the first public notice.

Construction charges based on productive power.

Amount and period of installment payments.

SUBSEC. F. That hereafter all project construction charges shall be made payable in annual installments based on the productive power of the land as provided in this subsection. The installment of the construction charge per irrigable acre payable each year shall be 5 per centum of the average gross annual acre income for the ten calendar years first preceding, or for all years of record if fewer than ten years are available, of the area in cultivation in the division or subdivision thereof of the project in which the land is located, as found by the Secretary annually. The decision of the Secretary as to the amount of any such installment shall be conclusive. These annual payments shall continue until the total construction charge against each unit is paid. The Secretary is authorized upon request to amend any existing contract for a project water right so that it will provide for payment of the construction charge thereunder in accordance with the provisions of this subsection or for the deferment of such construction charges for a period of three years from the approval of this section, or both.

Amendment of contracts authorized upon request.

Water users' associations to operate, etc., projects when two-thirds of area covered by water rights contracts.

SUBSEC. G. That whenever two-thirds of the irrigable area of any project, or division of a project, shall be covered by water right contracts between the water users and the United States, said project shall be required, as a condition precedent to receiving the benefits

of this section to take over, through a legally organized water users' association or irrigation district, the care, operation, and maintenance of all or any part of the project works, subject to such rules and regulations as the Secretary may prescribe, and thereafter the United States, in its relation to said project, shall deal with a water users' association or irrigation district, and when the water users assume control of a project, the operation and maintenance charges for the year then current shall be covered into the construction account to be repaid as part of the construction repayments.

**SUBSEC. H.** That the penalty of 1 per centum per month against delinquent accounts, provided in section 3 and section 6 of the Act of August 13, 1914 (Thirty-eighth Statutes, page 686), is hereby reduced to one-half of 1 per centum per month, as to all installments which may hereafter become due.

**SUBSEC. I.** That whenever the water users take over the care, operation, and maintenance of a project, or a division of a project, the total accumulated net profits, as determined by the Secretary, derived from the operation of project power plants, leasing of project grazing and farm lands, and the sale or use of town sites shall be credited to the construction charge of the project, or a division thereof, and thereafter the net profits from such sources may be used by the water users to be credited annually, first, on account of project construction charge, second, on account of project operation and maintenance charge, and third, as the water users may direct. No distribution to individual water users shall be made out of any such profits before all obligations to the Government shall have been fully paid.

**SUBSEC. J.** That all moneys or profits as determined by the Secretary heretofore or hereafter derived from the sale or rental of surplus water under the Warren Act of February 21, 1911 (Thirty-sixth Statutes, page 925), or from the connection of a new project with an existing project shall be credited to the project or division of the project to which the construction cost has been charged.

**SUBSEC. K.** That on each existing project where, in the opinion of the Secretary, it appears that on account of lack of fertility in the soil, an inadequate water supply, or other physical causes, settlers are unable to pay construction costs, or whenever it appears that the cost of any reclamation project by reason of error or mistake or for any cause has been apportioned or charged upon a smaller area of land than the total area of land under said project, the Secretary is authorized to undertake a comprehensive and detailed survey to ascertain all pertinent facts, and report in each case the result of such survey to the Congress, with his recommendations: *Provided*, That the cost and expense of each such survey shall be charged to the appropriation for the project on account of which the same is made, but shall not be charged as a part of the construction or operation and maintenance cost payable by the water users under the project.

**SUBSEC. L.** That in any adjustment of water charges as provided in this section all due and unpaid charges to the United States, both on account of construction and on account of operation and maintenance, including interest and penalties, shall be added in each case to the total obligation of the water user, and the new total thus established shall then be the construction charge against the land in question.

**SUBSEC. M.** That every entryman or assignee on a project farm unit not yet patented which unit shall be found by the Secretary to be insufficient to support a family and pay water charges shall have the right upon application to exchange his entry for another farm unit of unentered public land on the same or another project located in the same State, in which event all installments of construction

In each case where the care, operation, and maintenance of a project or division of a project are transferred to the water users the contract shall require the payment of operation and maintenance charges in advance. That whenever an adjustment of water charges is made under this section the adjustment contract shall provide that thereafter all operation and maintenance charges shall be payable in advance.

Adjusted charges.

pact.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the consent and approval of Congress is hereby given to the compact signed by the commissioners of the States of Colorado and New Mexico at the city of Santa Fe, on the 27th day of November, 1922, and approved by the Legislature of the State of Colorado by an act entitled "An act to approve the La Plata River compact," April 13, 1923, and by the Legislature of the State of New Mexico by an act entitled "An act ratifying and approving the La Plata compact," approved February 7, 1923, which compact is as follows:

"The State of Colorado and the State of New Mexico, desiring to provide for the equitable distribution of the waters of the La Plata River and to remove all causes of present and future controversy between them with respect thereto, and being moved by considerations of interstate comity, pursuant to Acts of their respective legislatures, have resolved to conclude a compact for these purposes and have named as their commissioners Delph E. Carpenter, for the State of Colorado, and Stephen B. Davis, junior, for the State of New Mexico, who have agreed upon the following articles:

"ARTICLE I.

"The State of Colorado, at its own expense, shall establish and maintain two permanent stream-gauging stations upon the La Plata River for the purpose of measuring and recording its flow, which shall be known as the Hesperus station and the interstate station, respectively.

"The Hesperus station shall be located at some convenient place near the village of Hesperus, Colorado. Suitable devices for ascertaining and recording the volume of all diversions from the river above Hesperus station shall be established and maintained (without expense to the State of New Mexico), and whenever in this compact reference is made to the flow of the river at Hesperus station it shall be construed to include the amount of the concurrent diversions above said station.

"The interstate station shall be located at some convenient place within one mile of and above or below the interstate line. Suitable devices for ascertaining and recording the volume of water diverted by the Enterprise and Pioneer Canals, now serving approximately equal areas in both States, shall be established and maintained (without expense to the State of New Mexico), and whenever in this compact reference is made to the flow of the river at the interstate station it shall be construed to include one-half the volume of the concurrent diversions by such canals, and also the volume of any other water which may hereafter be diverted from said river in Colorado for use in New Mexico.

"Each of said stations shall be equipped with suitable devices for recording the flow of water in said river at all times between the 15th day of February and the 1st day of December of each year. The State engineers of the signatory States shall make provision for cooperative gauging at two stations, for the details of the operation, exchange of records and data, and publication of the facts.

## "ARTICLE II.

"The waters of the La Plata River are hereby equitably apportioned between the signatory States, including the citizens thereof, as follows:

La Plata River compact—Continued.

"1. At all times between the 1st day of December and the 15th day of the succeeding February each State shall have the unrestricted right to the use of all water which may flow within its boundaries.

"2. By reason of the usual annual rise and fall, the flow of said river between the 15th day of February and the 1st day of December of each year shall be apportioned between the States in the following manner:

"(a) Each State shall have the unrestricted right to use all the waters within its boundaries on each day when the mean daily flow at the interstate station is one hundred cubic feet per second, or more.

"(b) On all other days the State of Colorado shall deliver at the interstate station a quantity of water equivalent to one-half of the mean flow at the Hesperus station for the preceding day, but not to exceed one hundred cubic feet per second.

"3. Whenever the flow of the river is so low that in the judgment of the State engineers of the States the greatest beneficial use of its waters may be secured by distributing all of its waters successively to the lands in each State in alternating periods, in lieu of delivery of water as provided in the second paragraph of this article, the use of the waters may be so rotated between the two States in such manner, for such periods, and to continue for such time as the State engineers may jointly determine.

"4. The State of New Mexico shall not at any time be entitled to receive nor shall the State of Colorado be required to deliver any water not then necessary for beneficial use in the State of New Mexico.

"5. A substantial delivery of water under the terms of this article shall be deemed a compliance with its provisions and minor and compensating irregularities in flow or delivery shall be disregarded.

## "ARTICLE III.

"The State engineers of the States, by agreements from time to time, may formulate rules and regulations for carrying out the provisions of this compact, which, when signed and promulgated by them, shall be binding until amended by agreement between them or until terminated by written notice from one to the other.

## "ARTICLE IV.

"Whenever any official of either State is designated to perform any duty under this contract, such designation shall be interpreted to include the State official or officials upon whom the duties now performed by such official may hereafter devolve.

## "ARTICLE V.

"The physical and other conditions peculiar to the La Plata River and the territory drained and served thereby constitute the basis for this compact, and neither of the signatory States concedes the establishment of any general principle or precedent by the concluding of this compact.

## "ARTICLE VI.

La Plata River compact—Continued.

"This compact may be modified or terminated at any time by mutual consent of the signatory States, and upon such termination all rights then established hereunder shall continue unimpaired.

## "ARTICLE VII.

"This compact shall become operative when approved by the legislature of each of the signatory States and by the Congress of the United States. Notice of approval by the legislatures shall be given by the governor of each State to the governor of the other State, and the President of the United States is requested to give notice to the governors of the signatory States of approval by the Congress of the United States.

"In witness whereof, the commissioners have signed this compact in duplicate originals, one of which shall be deposited with the secretary of state of each of the signatory States.

"Done at the city of Santa Fe, in the State of New Mexico, this twenty-seventh day of November, in the year of our Lord one thousand nine hundred and twenty-two."

*Proviso.* Pending cases involving rates for agricultural products not to be delayed.

That the Interstate Commerce Commission is authorized and directed to make a thorough investigation of the rate structure of common carriers subject to the interstate commerce act, in order to determine to what extent and in what manner existing rates and charges may be unjust, unreasonable, unjustly discriminatory, or unduly preferential, thereby imposing undue burdens, or giving undue advantage as between the various localities and parts of the country, the various classes of traffic, and the various classes and kinds of commodities, and to make, in accordance with law, such changes, adjustments, and redistribution of rates and charges as may be found necessary to correct any defects so found to exist. In making any such change, adjustment, or redistribution the commission shall give due regard, among other factors, to the general and comparative levels in market value of the various classes and kinds of commodities as indicated over a reasonable period of years to a natural and proper development of the country as a whole, and to the maintenance of an adequate system of transportation. In the progress of such investigation the commission shall, from time to time, and as expeditiously as possible, make such decisions and orders as it may find to be necessary or appropriate upon the record then made in order to place the rates upon designated classes of traffic upon a just and reasonable basis with relation to other rates. Such investigation shall be conducted with due regard to other investigations or proceedings affecting rate adjustments which may be pending before the commission.

In view of the existing depression in agriculture, the commission is hereby directed to effect with the least practicable delay such lawful changes in the rate structure of the country as will promote the freedom of movement by common carriers of the products of agriculture affected by that depression, including livestock, at the lowest possible lawful rates compatible with the maintenance of adequate transportation service: *Provided*, That no investigation or proceeding resulting from the adoption of this resolution shall be permitted to delay the decision of cases now pending before the commission involving rates on products of agriculture, and that such cases shall be decided in accordance with this resolution.

(d) In any case in which the final judgment or decree of any court is subject to review by the Supreme Court on writ of certiorari, the execution and enforcement of such judgment or decree may be stayed for a reasonable time to enable the party aggrieved to apply for and to obtain a writ of certiorari from the Supreme Court. The stay may be granted by a judge of the court rendering the judgment or decree or by a justice of the Supreme Court, and may be conditioned on the giving of good and sufficient security, to be

approved by such judge or justice, that if the aggrieved party fails to make application for such writ within the period allotted therefor, or fails to obtain an order granting his application, or fails to make his plea good in the Supreme Court, he shall answer for all damages and costs which the other party may sustain by reason of the stay.

Ascertainment of value not disclosed upon record, if jurisdiction depends on amount thereof.
